SWIMMING POOL HOSE HEAVY DUTY

ROWIN QUALITY ★★★★★

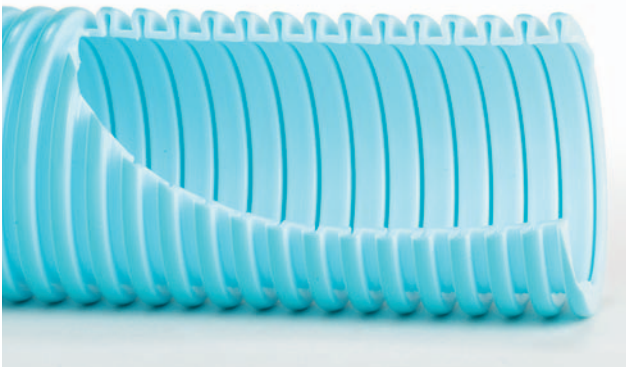

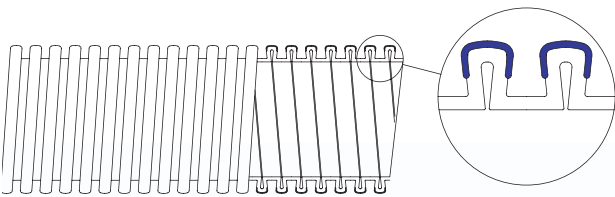

SPECIFICATIONS

Type	HEAVY DUTY
Material	Polyethylene-EVA
Material Density	< 1: floats on water
Temperature Range	-25°C to 60°C - flexible at low temperature
Diameter (I.D.)	38 mm (1 1/2") and 50 mm (2")
Standaard Lengths in m	10 - 12 - 15 - 20 m
Standaard Colours	White/Blue 
Packaging	Carton
Profile	Double layer: flexible base and extra reinforcement
Weight/m	± 300 g
Sunlight Protection	Extra UV-stabilisation
Cuffs	leak proof, welded on
Swivel Cuff	 <i>Improved SWIFEL CUFF developed by Rowin Plastics</i> option
Application	Inground, service man + commercial pools

APPLICATION

Pool cleaning hose residential pools and professional pool service men.

ADVANTAGES

- It is a very flexible sturdy vacuum hose that floats on water. It is therefore easy to handle and to manipulate.
- The dual layer construction makes maximum use of the different plastic characteristics. The hose can be made lighter and stronger. It is a very durable and easy to use pool hose because of:

THE FLEXIBLE BASE MATERIAL THAT GIVES:

high flexibility
longer flex life
small bending radius

THE HARD REINFORCEMENT ON THE OUTSIDE OF THE HOSE:

better wear and abrasion resistance
light weight yet good vacuum and crush resistance at higher temperature

- The inside of the hose is very smooth for maximum water flow rate.
- The plastic material has proven to be very resistant to sunlight and chlorinated pool water.

Our years of experience in the production of pool hoses and the unique design of this hose, assure top quality and years of trouble free service.
